Education

- **Veermata Jijabai Technological Institute (VJTI)** *2024- 2026*
  Masters of Computer Application
- **SVKM's Mithibai College** *2021 - 2024*
  Bachelor of Science in Computer Science CGPA: 8.36

Personal Projects

- **ChatXtract**
  AI-powered chat application with PDF integration, real-time subscription management
  - Developed a chat application with PDF integration, allowing users to upload files and initiate conversations around the content.
  - Implemented an AI assistant using the OpenAI API to generate contextual responses, enhancing user engagement and chat experience.
  - Integrated a subscription model using Stripe for payment processing, including webhooks for real-time event handling.
  - Leveraged a tech stack including Next.js, React, TypeScript, Tailwind CSS, Clerk, Drizzle ORM, PostgreSQL, AWS SDK, Axios, Pinecone, and other tools to create a scalable, high-performance application.
- **KP FAST**
  Cross-platform fitness monitoring app
  - Spearheaded the development of a fitness monitoring app using Flutter, resulting in a 55% increase in user engagement through visually appealing and user-friendly interfaces for iOS and Android platforms, achieving over 150 downloads on both platforms.
  - Developed robust communication channels between coaches and athletes, addressing inquiries promptly and achieving a 80% improvement in user satisfaction.
  - Created a companion website using Flutter, enhancing the overall digital presence and functionality of the fitness monitoring ecosystem, with an average of 300 monthly users.
- **LiveDocs**
  Real-time, collaborative document editing application
  - Built a collaborative document editor using Next.js, Liveblocks, and Tailwind CSS, enabling real-time multi-user editing and interaction.
  - Developed secure authentication through Clerk, providing robust user session management.
  - Integrated real-time notifications for document shares, comments, and collaborator activities, enhancing user engagement and communication.

Technical Skills

- **Languages :** Python · JavaScript · Java · Swift
- **Frameworks & Libraries :** TensorFlow · PyTorch · Flutter · React · Node.js · Django
- **Dev Tools & Technologies :** Git · Docker · Kubernetes · VSCode · Postman
- **Databases :** MongoDB · Firebase RTDB · Firebase Firestore · SQLite · MySQL
- **Cloud Technologies :** Amazon Web Services (AWS) · Google Cloud Platform (GCP) · Vercel

Positions of Responsibility

- **Head of Department Finance and Corporate Relations,** Mithibai TechSpark *Jun '23 to Apr '24*
- **Contingent Leader for Mithibai College,** at NMTech Fest at Narsee Monjee College *Nov '22 to Mar '23*
- **Department Lead Web Development Team,** TEDxMithibaiCollege *Sept '22 to Feb '23*

Achievements

- **Lead Web Development Team at TEDxMithibaiCollege** and increased website traffic by 130% and increased footfall by 60% at the event.
- **National Level Weightlifter,** and two time Maharashtra Gold Medalist.
- **Captaining school Baseball Team** for 5 years, achieving 5 consecutive division championship.
